### Cash rate expected to fall as inflation continues to moderate<sup>1</sup>

#### Labour market outlook<sup>3</sup>

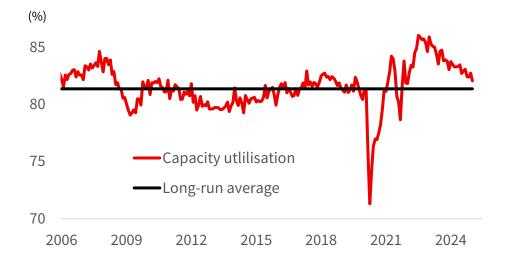

### Businesses under pressure but resilient

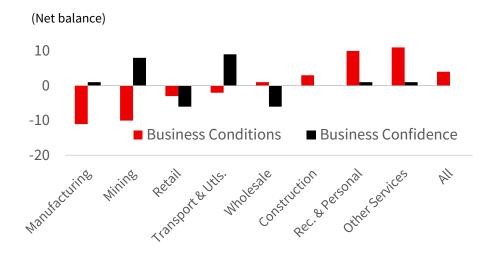

#### **Business conditions**

- Business conditions have softened over 2024 and are now just below average; weakest in goods sectors
- Continued easing in labour and input cost growth but margins remain under pressure
- Business activity resilient with capacity utilisation still above average (though easing), supporting investment
- Consumer demand, supported by population growth, has been key
- Business credit expected to remain strong at 8.1% over 2025

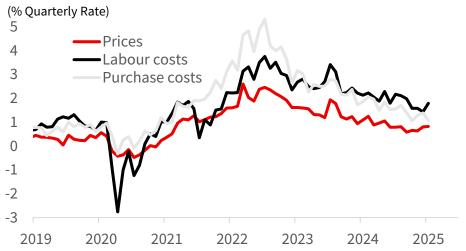

#### Capacity utilisation is above average<sup>2</sup>

### Conditions around the long run average; confidence remains soft and weakest in retail and wholesale<sup>1</sup>

#### **Operating Performance**

Cash earnings 2% lower compared with the 2H24 quarterly average, mainly reflecting underlying profit growth of 4% offset by higher credit impairment charges and income tax expense:

- **Revenue** grew 3%, primarily driven by higher Markets & Treasury (M&T) income. Ex M&T, revenue was broadly stable with volume growth offset by lower margins;
- Net interest margin (NIM) A small decline in net interest margin with drags from funding costs, lending competition and deposits, partially offset by benefits of a higher interest rate environment and a slightly positive impact from M&T. There was no impact from liquid assets;
- **Expenses** rose 2% mainly reflecting higher personnel and financial crime-related costs, along with increased technology spend, partly offset by productivity benefits and lower costs relating to the Group's Enforceable Undertaking with AUSTRAC.

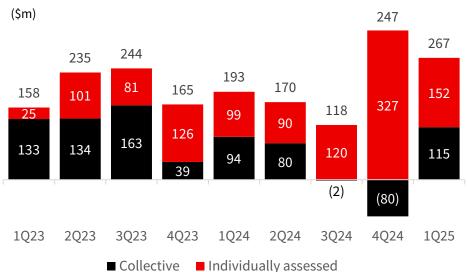

(i) Refer to note on cash earnings in disclaimer on pages 48-50

<sup>(1)</sup> The December 2024 quarter results are compared with the quarterly average of the September 2024 half year results for continuing operations unless otherwise stated. Revenue, expenses and asset quality are expressed on a cash earnings basis

### **Asset quality**

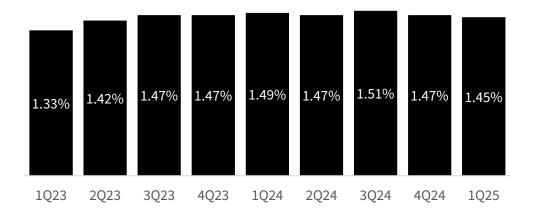

As at 31 December 2024

#### Credit impairment charges

### Collective provisions to credit risk weighted assets

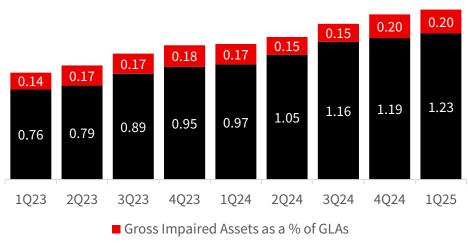

#### 1Q25 Key Considerations

- Credit impairment charge (CIC) of \$267 million. Individually assessed charges were \$152 million driven mainly by Australian business lending and unsecured retail portfolios. Collective charges were \$115 million primarily reflecting asset quality deterioration and Australian business lending volume growth.
- Collective provisions to credit RWA decreased 2bps to 1.45%.
- Non-performing exposures to gross loans and acceptances increased by 4bps to 1.43%, reflecting further deterioration in the Business & Private Banking business lending portfolio, combined with higher arrears for the Australian mortgage portfolio. The ratio of gross impaired assets to gross loans and acceptances remained flat at 0.20%

### Loss Absorbing Capacity and Additional Tier 1

#### Key messages

- Based on the Group's RWA and Total Capital position at 31 Dec 24, NAB meets APRA's Jan 26 LAC requirements
- NAB has \$0.6bn of existing AT1 and \$2.4bn of existing Tier 2 with optional redemption dates prior to Jan 26<sup>1</sup>
- APRA released an industry letter in Dec 24 which confirmed that it will phase out AT1 and replace it with 0.25% CET1 and 1.25% Tier 2, from Jan 27<sup>2</sup>
- NAB has \$9.6bn of AT1 outstanding, which would continue to contribute to Total Capital until first call date through to 2032, under APRA's current proposal

### Sustainability is embedded in our Group Strategy

Prioritising support for customers in three areas:

- (1) Ambition reflects cumulative total of new financing activity from 1 October 2023 to 30 September 2030. See page 63 of NAB's 2024 Climate Report for further information
- (2) Ambition period commenced 1 October 2022. Includes affordable housing, specialist disability accommodation and sustainable housing. This includes loans made under the First Home Buyer Guarantee, Regional First Home Buyer Guarantee, Family Home Guarantee and New Home Guarantee, as part of the Home Guarantee Scheme for properties under the national median house price, and for borrowers with taxable income below the national median household income. Progress is based on total lending facilities committed, where first draw down occurred during the ambition period, or additional funding was provided during the ambition period for a pre-existing loan facility. This number does not reflect debt balance
- (3) Lending position refers to 'Gross Loans and Advances' to both direct Indigenous Businesses (with >50% Indigenous Ownership) and community organisations whose purpose contributes to Indigenous communities

#### (1) FY20 ROE and cash EPS exclude large notable items

### Net interest margin

#### Net interest margin (HoH)

#### Key considerations 1H25<sup>1</sup>

- Benefit of higher swap rates on deposit and capital replicating portfolios of ~4bp<sup>2</sup>
- Term Funding Facility (TFF) refinancing impact of ~1bps
- Ongoing headwinds from lending margin and deposits
- Key swing factors including home loan competitive dynamics and 3 month Bills/OIS spread<sup>3</sup>
- Minimal impact from liquids (broadly neutral to revenue)

#### Lower interest rate environment considerations

- Outcome subject to several factors including customer behaviour and competitive dynamics which are difficult to predict
- Estimated impact of 25bps RBA cash rate cut on Australian unhedged low rate sensitive deposits of ~1bps annualised<sup>1,4</sup>
- Returns on capital and deposit replicating portfolios impacted by lower 3 & 5 year swap rates over time

<sup>(4)</sup> Based on Sep 24 volumes and assumes certain pass-through rates on individual deposit products

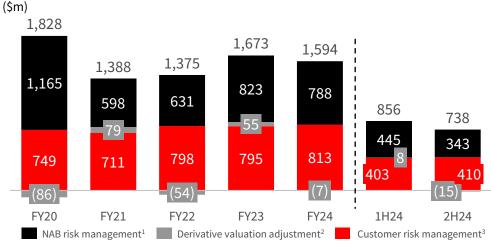

### 2H24 revenue

#### Net operating income (HoH)

### Markets & Treasury (M&T) income breakdown

#### Key revenue drivers HoH

- Business lending volume growth and moderating margin decline
- Fees & Commissions impacted by higher customer-related remediation and headwinds from sale/run-off of businesses
- Other reflects higher earnings from MLC Life and inclusion of FirstCape
- Lower M&T income mainly reflects losses on Treasury bond sales, mark-to-market losses on NZ Treasury bonds

(1) NAB risk management comprises net interest income and other operating income and is defined as management of interest rate risk in the banking book, wholesale funding and liquidity requirements and trading market risk to support the Group's franchises. Markets forms part of Corporate & Institutional Banking and New Zealand Banking revenue. Treasury forms part of Corporate Functions and Other revenue

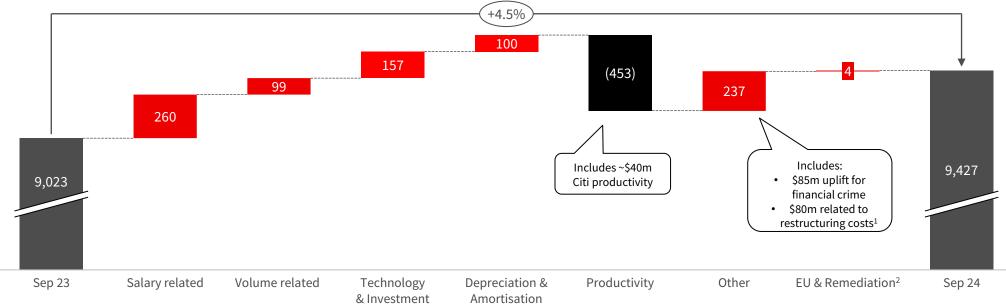

- (2) Derivative valuation adjustment is shown net of hedging costs or benefits and includes credit valuation adjustments and funding valuation adjustments
- (3) Customer risk management comprises net interest income and other operating income and reflects customer risk management in respect of Personal Banking, Business & Private Banking, Corporate & Institutional Banking and New Zealand Banking

### **Operating expenses**

#### Operating expenses (YOY)

(\$m)

#### FY25 considerations<sup>3</sup>

- Opex growth expected to be lower than FY24 growth of 4.5%<sup>4</sup>
  - Salary-related headwinds expected to slow
  - EU-related costs expected to be ~\$20m<sup>5</sup> (from \$89m in FY24)
  - Lower levels of restructuring costs expected
- Ongoing headwinds from Technology & Investment and Depreciation & Amortisation
- Investment spend expected to increase to ~\$1.8bn
- Targeting productivity >\$400m

- (2) EU-related costs of \$89m (\$105m in FY23). Customer related remediation \$40m in FY24 (\$20m in FY23)
- (3) Refer to key risks, qualifications and assumptions in relation to forward looking statements on pages 48-50
- (4) FY25 guidance excluding any large notable items

- (5) Assumes AUSTRAC CEO provides consent to the cancelling or withdrawal of the EU following receipt of
- the final report by the external auditor
- (6) Opex ratio based on investment spend as previously defined was 43%

<sup>(1)</sup> Restructuring costs of \$110m in FY24 (\$30m in FY23)

### Investment spend and productivity

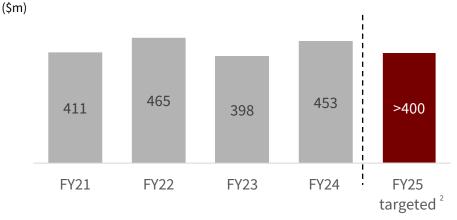

### **Re-defining investment spend**<sup>1</sup> (\$m)

#### FY25 investment spend considerations<sup>2</sup>

- Additional spend to support investment in:
  - A range of existing and new initiatives to drive improved customer advocacy
  - The gradual replacement of complex and ageing technology
- Maintaining cost discipline ongoing focus on productivity to help provide capacity for further investment

#### Cost discipline: delivering consistent productivity

(1) Investment spend was historically limited to expenditure on initiatives designed to enhance the customer experience, comply with legal and regulatory requirements, and improve capabilities and efficiencies in the Group's business processes. The scope of investment spend has been increased to include amounts in respect of capitalised software that relate to continuous improvement on deployed software and technology resilience. Investment spend excludes acquisition-related capitalised software of \$124m in FY24 (\$101m in FY23) as well as certain capitalised hardware and office fitout costs

(2) Refer to key risks, qualifications and assumptions in relation to forward looking statements on pages 48-50

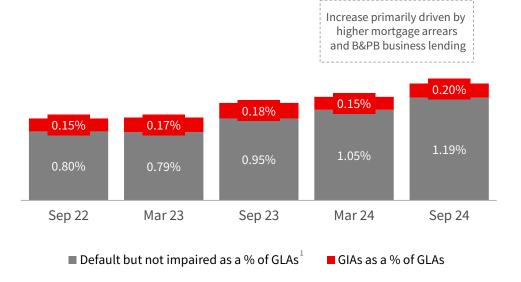

## **Additional information**

## FY24 Results: Asset Quality

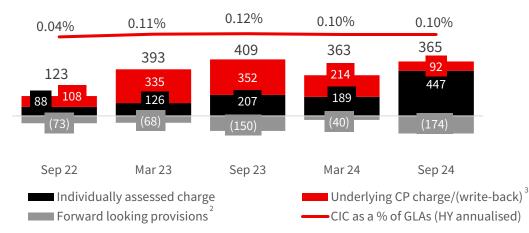

### **Asset quality**

#### Non-performing exposures (NPL) as a % of GLAs

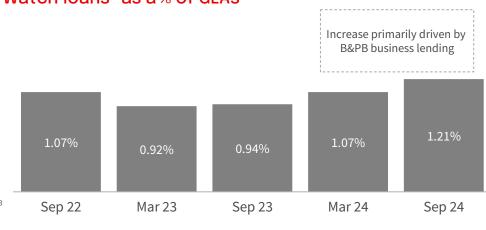

### Credit impairment charge (CIC)

#### Key 2H24 impacts

- Recent increase in Gross Impaired Assets (GIAs), but NPLs remain dominated by Default but not impaired
- CIC of \$365m, up \$2m
  - Individually assessed charge of \$447m mainly reflects increased impairments in B&PB business lending including \$135m from a small number of larger customers
  - Underlying collective charge of \$92m reflects asset deterioration partly offset by model changes
  - Net release of forward looking provisions of \$174m including impact of methodology refinements

#### Watch loans<sup>4</sup> as a % of GLAs

(1) 'Default but not impaired' includes '90+ DPD but not impaired' assets and 'Default <90 DPD but not impaired' assets aligned to APS 220 Credit Risk Management. Examples of assets included in 'Default <90 DPD but not impaired' include cross defaults for business customers, bankruptcy and customers serving the 90-day probation period before reclassification to performing</p>

- (2) Represents collective provision EA and FLAs for targeted sectors
- (3) Represents collective credit impairment charge less forward looking provisions

(4) Watch loans are generally triggered by banker referrals or manual downgrades of customer ratings as part of reviews through the year

### Total provision balances higher (\$m)

#### Key considerations

- Total provisions of \$5.9bn represent 1.6x 100% base case scenario (after excluding \$334m in FLA balances from the 100% base scenario)
- CP of \$5.2bn representing 1.47% CRWA
- Deteriorating asset quality in 2H24 evident in higher IAPs; impact on underlying CP has been offset by model changes and CP on derivatives no longer being included
- \$174m reduction in forward looking provisions since Mar 24 reflecting increasing stress in actual outcomes
  - Economic Adjustment (EA) includes the impact of methodology refinements combined with a decrease of 2.5% in the downside scenario weight; little change to economic assumptions
  - Net release of FLAs relating to Australian Mortgages, Construction and discretionary spend related industries
- Maintaining strong forward looking provisions reflecting uncertainty over ability of customers to manage high interest rates and inflationary pressures combined with global instability

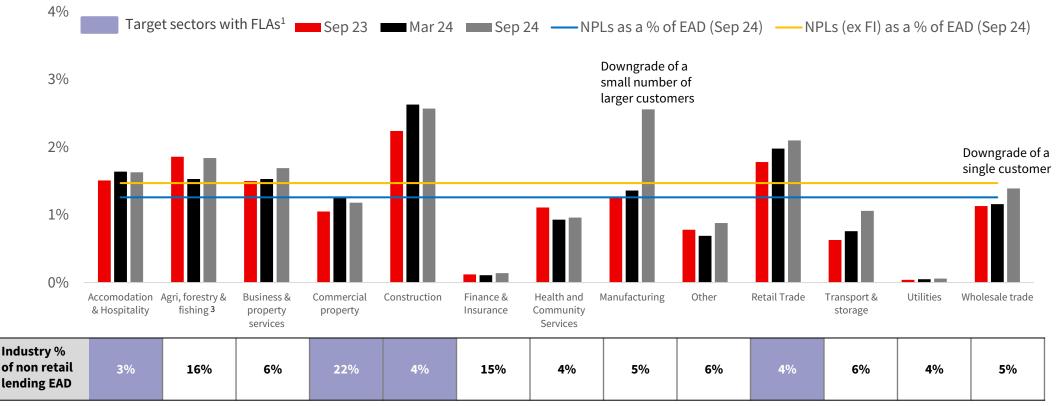

### Group non retail lending industry sector analysis

#### Key considerations

- Challenging macro environment, broad-based deterioration across industries
- Sep 24 NPL ratios overweight Business & Private Banking exposures and target sectors with FLAs<sup>1</sup>
- Recent deterioration most evident in:
  - Construction, Australian Agri and discretionary spending related industries
  - Stress in supply chains (particularly food-related) impacting manufacturers, wholesalers, transport, restaurants & pubs

#### Non-performing exposures (NPLs) as % of lending EAD by regulatory industry categories<sup>2</sup>

(1) Target sectors with FLAs refers to non-retail sectors with an FLA provision relating to Australian exposures: Retail Trade; Tourism, Hospitality & Entertainment (which includes Accommodation & Hospitality); Construction and CRE

(2) Industry classifications are aligned to those disclosed in the 30 September Pillar 3 report – Table 5.1D. EAD shown excludes non-lending assets and certain assets supporting the Group LCR

(3) Mar 2024 and Sep 2023 figures include the impact of NZ exposures affected by severe weather events classified as "Restructured loans" in accordance with APS 220 Credit Risk Management. Group non performing exposures as % of EAD excluding NZ restructured loans was 1.52% at Mar 2024 and 1.45% at Sep 2023

### Total provision for expected credit losses<sup>1</sup> (\$m)

■ Housing ■ Business ■ Other

#### Key considerations

- Increase in ECL vs Mar 24 primarily reflects deterioration in asset quality, partially offset by a net release of \$174m from forward looking provisions:
  - EA includes the impact of methodology refinements combined with a decrease of 2.5% in the downside scenario weight; little change to economic assumptions
  - Net release of FLAs relating to Australian Mortgages, Construction and discretionary related industries
- NAB holds \$2,139m in provisions above the 100% base case, after excluding \$334m in FLA balances from the 100% base scenario

#### **Economic assumptions**

(1) ECL excludes provisions on fair value loans and derivatives for Mar 24 and prior periods

(2) Scenarios, prepared for purposes of informing forward looking provisions, rely on NAB Economics modelling at August 2024 and management judgement

(3) 100% base case, 100% downside and probability weighted scenario all include \$334m of FLAs

(2) CRE EAD figures are limits based on ARS 230 definitions and CRE FLAs relate to total CRE portfolio with Office, Retail and THE CRE viewed as most at risk

### Agriculture, forestry & fishing exposures<sup>1</sup>

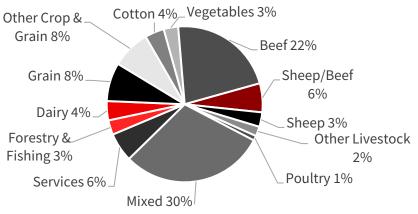

#### Group EAD \$62.2bn September 2024

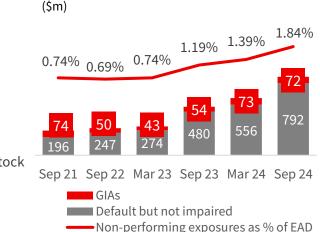

#### Australian agriculture, forestry & fishing

Portfolio EAD \$47.0bn September 2024

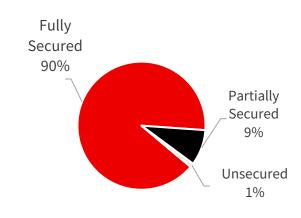

#### Key Australian considerations

- Weather conditions have been mixed, with favourable conditions on the East Coast and rains in Western Australia, but dry conditions and recent frost events in Western Victoria and South Australia
- Sentiment generally remains positive with expectation of reasonable harvests, and asset valuations remain robust except for specific sub-sectors such as wine grapes
- NPL ratio has increased materially:
  - higher costs (interest and inputs) and continued labour issues (cost and supply) are proving challenging for some customers across a range of sectors;
  - while 2H24 deterioration is fairly broad based by sub-sector, particular stress is evident in dairy and cropping across a small number of larger customers in southern states
  - ~16% of non-retail lending EAD

(1) Measured as balance outstanding as at 30 September 2024 per APRA Commercial Property ARF 230 definitions. NAB modified its interpretation of the ARS 230 Commercial Property standard during the September 2023 half, with the guidance of APRA. This resulted in an additional ~\$3.5bn in Australian balances qualifying for ARS 230 reporting at Sep 23

- (2) Includes overseas offices not separately disclosed
- (3) Developer at September 2024 includes \$1.9bn for land development and \$3.2bn for residential development in Australia

(4) Fully Secured is where the loan amount is less than 100% of the bank extended value of security; Partially Secured is where the loan amount is greater than 100% of the bank extended value of security; Unsecured is where no security is held and/or no value held against the security and negative pledge arrangements may be in place. Bank extended value is calculated as a discount to market value based on the nature of the underlying security

### Commercial real estate<sup>1</sup>

#### Key asset quality considerations

- Non-performing exposures above low levels of recent years but remain below longer term historical levels; current experience has been biased towards default but not impaired exposures
- Higher default but not impaired since Sep 22 are being influenced by increased interest expenses that are not offset by sufficient rental growth for investment lending and delayed project completions / cost over-runs in the development portfolio relating to builder / construction issues
- Higher interest rates driving down transaction **leverage (LVR)** at origination to satisfy **serviceability (ICR)** requirements
- Material portion of new and renewed CRE Investment lending over past 18 months associated with LVRs <60%</li>
- **Transaction volumes** remain low given continued disconnect between vendor and purchaser price expectations
- Provisioning includes \$166m target sector FLA

#### Non-performing exposure and as % GLAs

#### Sector considerations

- Slower lending momentum observed in **Development** segment; labour shortages in construction sector continue to challenge new development starts
- **Discretionary income** exposed assets face challenges from elevated interest rates and cost of living pressures
- Valuation pressure and elevated vacancy rates evident across **Office** markets. Secondary assets<sup>2</sup> lacking Green credentials deemed higher risk, particularly those with shorter lease expiries located in CBD-type locations
  - C&IB portfolio (~65% of Australian office) biased towards Prime / A-grade assets
  - B&PB portfolio (~35% of Australian office) typically associated with C to D grade assets located in non-CBD locations

(1) Measured as balance outstanding per APRA Commercial Property ARS 230 definitions

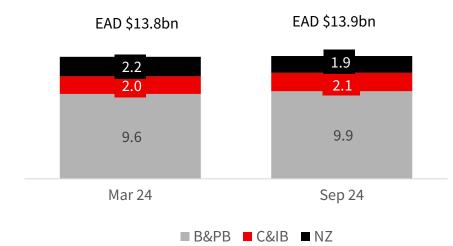

(2) Refers to office assets below Prime and A-grade

(3) 'Default but not impaired' includes '90+ DPD but into impaired' assets and 'Default <90 DPD but not impaired' assets aligned to APS 220 Credit Risk Management. ### Construction<sup>1</sup>

#### Exposure at default

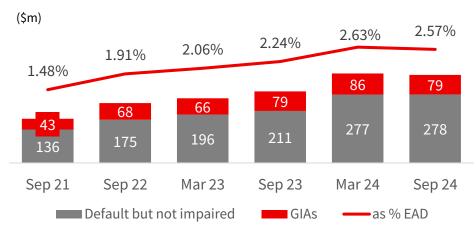

#### Key considerations

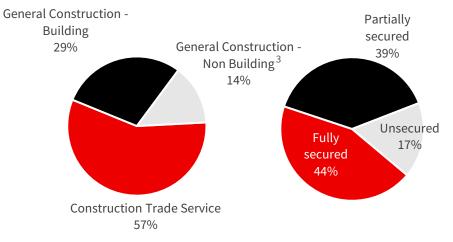

- Key challenges continue to be around labour availability and subcontractors issues (both availability and completion risk); new housing starts have moderated in the face of rising interest and construction costs
- ~4% non retail lending EAD including subcontractors and construction services
- Highly diversified and secured portfolio
- Provisioning includes \$20m target sector FLA
- ~60% of C&IB exposures are contingent facilities e.g. performance guarantees

| Sep 24 Australian<br>Construction | B&PB | C&IB | Total |

- (2) Fully Secured is where the loan amount is less than 100% of the bank extended value of security; Partially Secured is where the loan amount is greater than 100% of the bank extended value of security; Unsecured is where no security is held and/or no value held against the security and negative pledge arrangements may be in place. Bank extended value is calculated as a discount to market value based on the nature of the underlying security.
- (3) General Construction Non Building EAD includes construction activities such as infrastructure, leisure, irrigation, mining etc

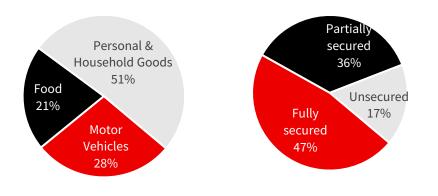

### Retail Trade<sup>1</sup>

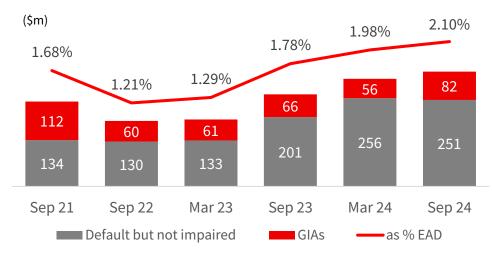

#### Exposure at default

#### EAD portfolio by sector and security<sup>2</sup>

#### Key considerations

- Despite population growth, ongoing cost of living pressures are resulting in a moderation in overall consumer demand
- Consumer segments are being impacted differently including a shift in consumer spending patterns towards essentials with a resulting reduction in discretionary spending
- 2H24 increase in NPL ratio due to higher GIAs relating to smaller customers in the B&PB business lending portfolio
- Provisioning includes \$40m target sector FLA
- ~4% non retail lending EAD

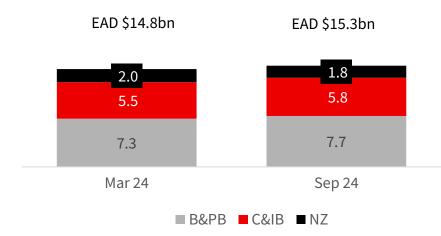

#### Non-performing exposure as % of sector EAD

(1) Based on ANZSIC Level 1 classifications of the counterparty to which the Group is exposed to credit risk, including guarantors and derivative counterparties

(2) Fully Secured is where the loan amount is less than 100% of the bank extended value of security; Partially Secured is where the loan amount is greater than 100% of the bank extended value of security; Unsecured is where no security is held and/or no value held against the security and negative pledge arrangements may be in place. Bank extended value is calculated as a discount to market value based on the nature of the underlying security

### Tourism, hospitality and entertainment<sup>1</sup>

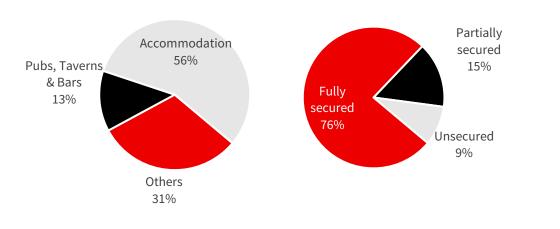

EAD portfolio by sector and security<sup>2</sup>

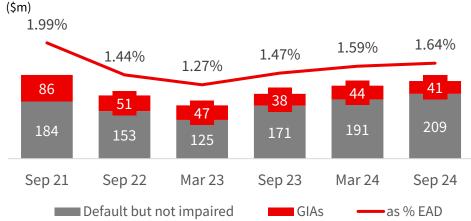

#### Exposure at default

#### Key considerations

- Industry data suggests trading performance for Tourism and Entertainment operators remains robust, notwithstanding wage input cost increases and reduced discretionary spending
- Impacts of softer consumer confidence, reduced discretionary spending, higher cost of living and increased interest rates are being felt unevenly across the portfolio reflecting differences by demographics
- ~4% of non retail lending EAD
- Provisioning includes \$50m target sector FLA

#### Non-performing exposure as % of sector EAD

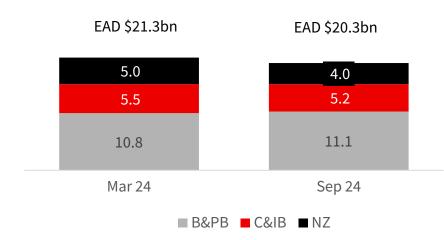

(1) Based on the ANZSIC Level 1 classifications of accommodation and hospitality, plus cultural and recreational services; based on the counterparty to which the Group is exposed to credit risk, including guarantors and derivative counterparties

(2) Fully Secured is where the loan amount is less than 100% of the bank extended value of security; Partially Secured is where the loan amount is greater than 100% of the bank extended value of security; Unsecured is where no security is held and/or no value held against the security and negative pledge arrangements may be in place. Bank extended value is calculated as a discount to market value based on the nature of the underlying security

### Manufacturing<sup>1</sup>

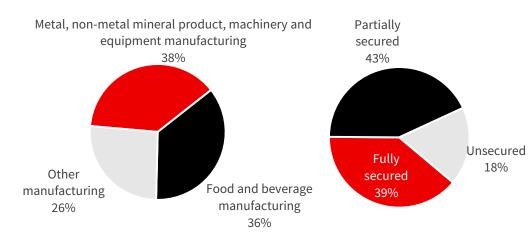

### Exposure at default

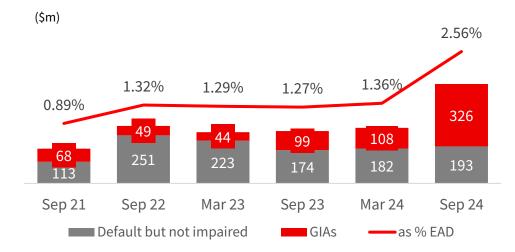

### Key considerations

- Higher interest rates and input costs have led to deterioration in the Manufacturing industry, particularly those within the food and beverage supply chain
- Increase in NPL ratio in 2H24 primarily reflects a small number of larger customers in B&PB
- ~5% of non retail lending EAD

### EAD portfolio by sector and security<sup>2</sup>

### Non-performing exposure as % of sector EAD

(1) Based on ANZSIC Level 1 classifications of the counterparty to which the Group is exposed to credit risk, including guarantors and derivative counterparties

### **AUSTRAC Enforceable Undertaking**

#### **Overview of Enforceable Undertaking**

- Following its investigation, AUSTRAC accepted an Enforceable Undertaking (EU) from NAB in April 2022 to lift its compliance with Anti Money Laundering / Counter Terrorism Financing (AML/CTF)
- Under the terms of the EU, NAB is required to implement a comprehensive Remedial Action Plan (RAP) involving improvements in its systems, controls and record-keeping, including:
  - NAB's AML/CTF Program
  - Applicable customer identification procedures
  - Customer risk assessment and enhanced customer due diligence
  - Transaction monitoring
  - Governance and assurance
- NAB will obtain interim reports from the external auditor on a quarterly basis and an annual basis. The external auditor will provide a final report to NAB for the period up to 31 March 2025
- The EU will end on the date that the AUSTRAC CEO provides written consent to the cancelling or withdrawal of the EU

### Status as at September 2024

- An external auditor was appointed in May 2022 and continues to report to NAB and AUSTRAC periodically
- NAB has completed the delivery of its required activities under the RAP (some of which are yet to be reviewed by the external auditor)
- NAB continues to work closely with AUSTRAC and the external auditor on the EU
- NAB continues to oversee the EU through dedicated EU Governance forums
- Estimated costs of ~\$20m for FY25<sup>1,2</sup>. This is in addition to:
  - \$103m in FY22
  - \$105m in FY23
  - \$89m in FY24

<sup>(1)</sup> Assumes AUSTRAC CEO provides consent to the cancelling or withdrawal of the EU following receipt of the final report by the external auditor

### Disclaimer

This presentation does not constitute an offer to sell, or the solicitation of an offer to buy, any securities in the United States or to any "U.S. person" (as defined in Regulation S under the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act")) or any other jurisdiction in which such an offer would be illegal. Any securities referenced in this presentation or issued by any member of the Group have not been, and will not be, registered under the U.S. Securities Act or the securities laws of any state or other jurisdiction of the United States and may not be offered or sold, directly or indirectly, in the United States or to, or for the account or benefit of, any U.S. person, unless registered under the U.S. Securities Act or offered and sold pursuant to any exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable securities laws of any state or other Jurisdiction.

The material in this presentation is general background information about the Group current at the date of the presentation on 24 February 2025 (or as stated in the presentation). The information is given in summary form and does not purport to be complete. It is not intended to be relied upon as advice to investors or potential investors and does not take into account the investment objectives, financial situation or needs of any particular investor. No representation is made as to the accuracy, completeness or reliability of the presentation. This presentation does not constitute or form part of and should not be construed as, an offer or invitation for the sale or purchase of any securities in any jurisdiction.

The presentation is for distribution only to persons who are not a "retail client" within the meaning of section 761G of the Corporations Act 2001 of Australia and are also sophisticated investors, professional investors or other investors in respect of whom disclosure is not required under Part 6D.2 or Chapter 7 of the Corporations Act 2001 of Australia and, in all cases, in such circumstances as may be permitted by applicable law in any jurisdiction in which an investor may be located. Each person receiving this presentation confirms that they are a person who is entitled to do so under all applicable laws, regulations and directives in all applicable jurisdictions.

This presentation contains statements that are, or may be deemed to be, forward looking statements. These forward looking statements may be identified by the use of forward looking terminology, including the terms "believe", "estimate", "plan", "project", "anticipate", "expect", "goal", "target", "intend", "likely", "may", "will", "could" or "should" or, in each case, their negative or other variations or other similar expressions, or by discussions of strategy, plans, objectives, targets, goals, future events or intentions. Indications of, and guidance on, future earnings and financial position and performance are also forward looking statements. You are cautioned not to place undue reliance on such forward looking statements. Such forward looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties and other factors, many of which are beyond the control of the Group, which may cause actual results to differ materially from those expressed or implied in such statements. There can be no assurance that actual outcomes will not differ materially from these statements. There are a number of other important factors that could cause actual results to differ materially from those projected in such statements, including (without limitation) a significant change in the Group's financial performance or operating environment; a material change to law or regulation or changes to regulatory policy or interpretation; and risks and uncertainties associated with the ongoing impacts of the Russia-Ukraine and Israeli-Palestinian conflicts and other geopolitical tensions , the Australian and global economic environment and capital market conditions. Further information is contained in the Group's Annual Report for the 2024 financial year, available at <u>www.nab.com.au</u>.

The Group's results are presented on a cash earnings basis unless otherwise stated. Cash earnings is a key financial performance measure used by the Group and the investment community. The Group also uses cash earnings for its internal management reporting, as it better reflects what NAB considers to be the underlying performance of the Group. Underlying profit represents cash earnings before credit impairment charges, income tax expense and non-controlling interests. Cash earnings and underlying profit are not statutory financial measures, are not presented in accordance with Australian Accounting Standards, and are not audited or reviewed in accordance with Australian Auditing Standards. The 2024 Full Year Results – Management Discussion & Analysis provides details of how cash earnings is defined on page 10 and a discussion of non-cash earnings items and a full reconciliation of cash earnings and underlying profit to statutory net profit attributable to owners of NAB on pages 73 to 75.

### Disclaimer

The Group's financial statements, prepared in accordance with the Corporations Act 2001 (Cth) and Australian Accounting Standards, and audited (full year) or reviewed (half year) by the Group's auditors in accordance with Australian Auditing Standards, are made available on the Group's website. The 2025 Half Year Results are expected to be made available on or around 7 May 2025.
